Personal Statement

Front-end developer with 3 + years of experience in the FinTech sector. Passionate about clean, maintainable code and collaborating with UX to ship production features, I have engineered multiple digital wealth-management web apps for 100k + users.

Core Skills

Front-end: React, TypeScript, JavaScript, HTML5, CSS3/SASS, Bootstrap
Back-end (support): Node.js, Express.js, PostgreSQL, MySQL, Ruby on Rails

---

Experience

Front-End Developer - InvestCloud Inc.   London • Nov 2022 – Present

- Developed digital wealth management portals for clients and advisors using React, Typescript, HTML5, CSS + Bootstrap and a proprietary UI development tool.
- Integrated a proprietary UI component library with React SDK to standardize styles and accelerate development by 30%.
- Contributed to Go-Lives for clients such as Rathbones, HSBC, UBS Monaco. Coordinated dev, QA, and ops for zero bug launches.
- Mentored two junior developers; instituted a peer-review checklist that raised PR acceptance rate to 95%.
- Diagnosed performance issues using browser DevTools, leading to faster load times and increased page stability.

Freelance Web Developer   Remote • Jun 2022 – Oct 2023

- Designed and deployed 10+ single-page marketing sites via Fiverr
- Configured Heroku hosting, DNS, SSL and set up CI/CD pipelines—ensured 99.9% uptime.

Education

LeWagon Coding Bootcamp – Full-Stack Web Development   2022
BSc Computer Science (Level-4 Cert completed), University of London   2023–2025

Personal Projects

Personal Portfolio
- Developed and designed a personal portfolio website with React, Javascript and Bootstrap/SASS to showcase my works

Movie Explorer
- A React app that fetches and displays popular movies using the [TMDB API](#). Users can search for movies and save their favorites locally. Tech Stack: React (Hooks), React Router, TMDB Api, Javascript, CSS.

P5 Game
- A simple game project I built to practice using p5.js. It's a platform-style game designed to experiment with basic game mechanics, asset handling, and interactivity in JavaScript.
